## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claim 17 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Computer code must be stored in computer readable medium to be statutory. Make sure the specification supports such media.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 is a hybrid claim.

### ***Allowable Subject Matter***

5. Claims 1-6, 10-16, and 18 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Re Claims 1 and 18, prior art fails to teach a method of processing data descriptors whereby constructing and storing of the description units in a memory buffer is prior to recording on a recording medium .
